REASONS FOR ALLOWANCE

Claim 1 is allowable. Claims 10-11, 16-17 and 21-36, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in **MPEP § 821.04(a)**, the **restriction requirement among inventions I-VII, as set forth in the Office action mailed on August 4, 2005, is hereby withdrawn** and claims 10-11, 16-17 and 21-36 are hereby rejoined and fully examined for patentability under **37 CFR 1.104**. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim(s) including all the limitations of an allowable claim is presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of **35 U.S.C. 121** are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also **MPEP § 804.01**.

The following is an examiner's statement of reasons for allowance:

Claim 1 has been amended to recite that the actuation point, and consequently the fixed mass element or weight, cannot rotate relative to the intermediate element. Furthermore, the newly amended claim 1 now recites that the mass element is rotatable relative to the drive side transmission element and take-off side transmission element. The resulting combination is not shown or taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
